PROFESSIONAL SUMMARY

- Detail-oriented Quality Analyst with hands-on experience across the STLC and SDLC, including manual, functional, regression, smoke, sanity, API, UAT, and cross-browser compatibility testing. Currently holds dual, concurrent responsibility as Quality Analyst and Operations & Escalation Executive at TMBill Technology LLC, combining structured QA discipline with direct customer-escalation ownership. Skilled in designing and executing test cases, tracking defects in Jira, verifying bug fixes, and coordinating with development teams to safeguard release quality.

EXPERIENCE

- **Quality Analyst (Primary Role)** Pune, Maharashtra
TMBill Technology LLC Feb 2025 – Present
 - Designed and executed **250+ manual test cases** to validate application functionality across multiple workflows and releases.
 - Verified bug fixes through structured **re-testing** before every production release.
 - Conducted **API testing (Postman)**, **cross-browser compatibility testing**, and **UAT** coordination with stakeholders to confirm release readiness.
 - Logged and tracked **150+ defects** in **Jira** with detailed reproduction steps, coordinating with developers to drive timely resolution.
 - Maintained comprehensive **test cases**, **execution reports**, and **defect documentation**, ensuring traceability and supporting successful production releases.
- **Operations & Escalation Executive (Concurrent Role)** Pune, Maharashtra
TMBill Technology LLC Mar 2025 – Present
 - Managed **20+ customer escalations** weekly, partnering with QA and development teams on **root cause analysis**.
 - Reproduced reported issues manually to confirm defect validity and verify fixes prior to deployment.
 - Maintained escalation records and process documentation to support operational and QA traceability.
- **Technical Support Executive** Pune, Maharashtra
TMBill Technology LLC Jun 2024 – Jan 2025
 - Delivered **L1/L2 technical support** and hands-on application troubleshooting for **30+ cases** weekly.
 - Diagnosed and reproduced application defects, documenting reproduction steps for QA investigation.
 - Maintained support and issue-tracking documentation, streamlining the defect-reporting workflow.

PROJECTS

- **TMBill Order Hub – Testing & Support Operations**
Manual QA and support operations for TMBill's core order-management application
 - Performed end-to-end manual functional, regression, and cross-browser compatibility testing across TMBill Order Hub application workflows.
 - Conducted API testing using Postman to validate backend endpoints supporting order-management workflows.
 - Documented test cases and tracked defects in Jira, coordinating with developers through to resolution.
 - Collaborated with technical teams to expand manual test coverage and improve overall application reliability.
 - Technology Used: Manual Testing, Jira, SQL, Postman.
- **Campus Training & Placement Management Portal**
Web-based placement-tracking portal covering student registration through opportunity matching
 - Built the application using HTML, CSS, JavaScript, Java, PostgreSQL, and Bootstrap.
 - Designed and executed functional and integration test cases for student placement and opportunity-tracking workflows.
 - Technology Used: HTML, CSS, JavaScript, Java, PostgreSQL, Bootstrap.

EDUCATION

- **Master of Computer Applications (MCA)** 2024 – Present
Manipal University SGPA: 8.83/10
- **Bachelor of Computer Applications (BCA)** 2021 – 2024
Women's College of Home Science & BCA, Loni CGPA: 9.56/10
